Deadline for manuscript
submissions:

31 October 2021

Message from the Guest Editors

This Special Issue is open to publications from the field of economic policy, economics, taxes, business economics, and law. It is open to papers which seek to explore the link between traditional economic and climate goals and the issues of carbon neutrality goals, reducing the use of fossil fuels, and reducing greenhouse gases from an economic point of view. Publications that examine the impact of individual economic policies in this area, and their specific implications, as well as the impact of the institutional and regulatory environment in this area are particularly welcome. Moreover, the application of new sophisticated methods and ideas and the creation of new scenarios and their comparison within the world economy, for example, in the European Union, in the USA or in the BRICS countries, are also welcome.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
