### Message from the Guest Editors

Dear Colleagues,

This Special Issue seeks papers that address, but are not limited to, the following issues and aspects related to the diverse aspects of socio-economic processes as they unfold in rural and urban areas and have a bearing on individuals' security, safety, well-being, and happiness:

- policy-design and policymaking for sustainable development in urban and rural areas
- public-private partnerships and the development of strategies for sustainable rural and urban development
- the role of multilateral forums, international organizations, and other in streamlining the debate
- the role of the European Union (EU) in the debate on smart villages
- comparative aspects of smart village and smart city
- smart city and smart village technologies
- smart services' provision in rural and urban areas
- revitalization of rural areas through digital and social innovation
- innovation networks in the context of smart village research
- clusters in the context of smart village research
- smart specialization in the context of smart village

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 18 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in the first six months of 2018).
