### Message from the Guest Editors

In this Special Issue, we would like to invite authors to submit innovative and original research that stimulates the debate on recent and future trends, in both processes and the roles played by spatial planning, and how advances in theory, methodology and/or policy related to planning can provide opportunities for a planning paradigm shift towards smart spatial planning.

Topics may include (but are not limited to):

1. Theories, praxis and key concepts for smart spatial planning;
2. Urban sustainability challenges and innovative planning practices and solutions;
3. Emerging technologies and geospatial approaches;
4. Participatory planning approaches and scenario building;
5. Smart spatial planning.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
