Message from the Guest Editors

With this Special Issue, we intend to collect social innovation practices at HEIs around the world, and whether these practices are incorporated as a part of HEIs' strategies, decisions, structures, incentives, and way of operating. This Special Issue will also provide new knowledge of scientific and social interest of the right conditions—in the academic community, regional/national governments, social agents, and civic society (among main stakeholders)—for collaborating and supporting the HEIs' social innovation process, and in turn, the way in addressing sustainable development objectives.

Deadline for manuscript submissions:
