Message from the Collection Editors

This Special Issue is global in its geographical scope, but focusses primarily on social sustainability and its contributory factors and processes in the urban domain. We welcome a thematic range of contributions that develop and strengthen the conceptual basis of social sustainability, case studies that explore and evaluate social sustainability outcomes from different urban residential settings, and reflective articles that reflect on future directions and developmental priorities of the field.

In summary, this collection aims to carry forward the recent conceptual development of social sustainability (c.f. Shirazi & Keivani, 2019; Shirazi & Keivani, 2017) and fine-grained case study analysis of social sustainability local outcomes (Hamiduddin & Adelfio, 2019; Hamiduddin, 2015) as well as to review the experiences of new residential models that aim to promote social sustainability (Sendra and Fitzpatrick, 2020; Fitzpatrick, 2018). As this Special Issue will form the first of its kind focussing on social sustainability outcomes at a granular level, we anticipate that it will form a substantial and timely contribution to the literature on the topic.

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
