Tsinghua University, Beijing
100084, China
2. City College of New York, New
York, NY, USA

Deadline for manuscript
submissions:

closed (31 October 2022)

Message from the Guest Editors

The aim of this Special Issue is to attract works in which new insights for solid-waste and wastewater treatment processes are proposed. This Special Issue invites you to submit innovative contributions in advanced treatment of plastics, micro- and nano-plastics, hazardous waste, emerging pollutants, high organic content wastewaters, and hospital waste. Works on biofuels production (methane, syngas, liquid biofuels) from waste are particularly welcome. Works related to combined treatment processes of municipal and industrial solid and liquid waste and to their environmental impact and human health risk assessment are also welcome. This Special Issue also seeks original contributions on monitoring, modeling and management of treatment plants. Our editorial process focuses on the robustness and validity of your research rather than making subjective decisions on your manuscripts.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
