Deadline for manuscript submissions:

**closed (31 January 2021)**

### Message from the Guest Editors

Supply chains are dynamic systems that need to adapt to the environment requirements, some factors have an important role: power struggles between partners; difficulty achieving confidence and equity; integration and process organization; intra and inter-organisational context; shared vision of the sustainable business concept; different levels of maturity, etc.

All these factors and many others make it difficult, from a practical point of view, to establish supply chain strategy and deploy it so that it has an organizational impact on the partners, in such a way that the business sustainability is a real priority. In addition, it is also important to assess whether the defined strategy is fulfilling its purpose, whether the level of integration of the processes is as expected, and the desired degree of sustainability is really being achieved.

This Special Issue aims to analyze the problems described through works that address, from different perspectives, any of the aforementioned aspects. Conceptual frameworks, empirical studies, case studies, research articles with models, methodologies and systems, or even literature reviews are welcome.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
