Deadline for manuscript  
submissions:

**1 September 2021**

### Message from the Guest Editors

Artificial Intelligence (AI) in general and some of its subfields in particular are being perceived as some of the most promising technologies today. On the other hand, sustainability has been and still is one of the major concerns at the present time.

The present Special Issue aims at exploring the synergies of these two fields by studying cases of AI being used for social good and its latest advances. It is open to research papers on practical applications of AI for Sustainable Development, based on empirical experiments. Original contributions, including both data and knowledge-driven AI solutions, are cordially welcome. By means of this Special Issue, some fundamental concepts and associated AI techniques applied for sustainability will be further dealt with and promoted.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

**Journal Rank:** [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
