Message from the Guest Editors

This Special Issue on sustainable forest management (SFM) will include emerging issues for SFM such as forest certification and certified forest products, ecosystem services and markets, life cycle assessment of forest products, certified forestry systems, and economic contributions to sustainable forestry. In particular, this Issue will include papers that broadly focus on SFM at national to international scales, including ecosystem services and markets for carbon, water, wetlands, and recreation; life cycle assessment of forest products and mass timber structures; certified forest products from sustainably managed forests; forest certification and eco-labelling of forest products and wood structures; certified forestry systems in Asia, North America, Europe, and Oceania; and economic contributions of wood products to sustainable forestry and other related topics important for SFM.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
