Message from the Guest Editors

The crisis due to the COVID-19 virus pandemic has expanded discussions on cultural transitions and economic recessions. This Special Issue aims to provide reflections on the management of historic cities and world heritage sites in the post-crisis phase, particularly when mass tourists, and consequently their economic benefits, did not exist for a period. However, the temporary stagnation of the tourism sector seems to be inevitable for cultural heritage destinations dealing with a crisis, such as the post-COVID-19 era. Such events can disrupt the socio-economic dynamics at tourist destinations and pose a severe threat to the sustainability of world heritage sites. The emergence of the COVID-19 pandemic demonstrated the fragile condition of cultural heritage sites to economic recessions, necessitating reflections on cultural heritage policies that boost the sustainability of historic cities in the post-crisis era. Potential areas of focus may include, but are not limited to, the sustainability of world heritage sites in the post-COVID-19 era, armed conflict in historic towns, and rehabilitation of cultural heritage sites suffering from natural disasters.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
