Message from the Guest Editors

This special issue aims to further explore the topics at the intersection of digital transformation and sustainable manufacturing. Both original research and review papers are welcome, from the various research disciplines, such as smart and sustainable manufacturing, life cycle engineering, eco-design, remanufacturing, circular economy and system of systems engineering. The following non-exhaustive list of topics can be addressed:

- Data science and AI methods towards mitigating the environmental impacts of manufacturing;
- Engineering and design of sustainable products, processes and/or supply chains;
- Industry 4.0, Industrial Internet-of-Things (IIoT), Digital Twins and/or Cyber-Physical Production Systems (CPPS);
- Sustainable cyber-physical product- and/or production-service-systems;
- Shop-floor and/or dynamic life cycle assessment (LCA);
- Sustainable operational and business model innovation;
- Digital tracking and monitoring systems for sustainability;
- Circular economy through management and digital tools;
- Sustainability metrics;
- Compliance with international standards.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
