Message from the Guest Editors

Dear Colleagues,

The goal of the Special Issue is to expand the existing literature on these themes by offering new insights and future perspectives on how informal institutions (e.g., changing cultural values and cultural practices) and formal institutions (e.g., regulations, norms) may interplay together and affect corporate sustainability performance, as well as what the role is of leadership in shaping corporate sustainability policies and practices.

We invite both conceptual and empirical research on the above themes. We are particularly interested in research combining multiple theoretical backgrounds and methodological approaches, as well as literature review or theory papers.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
