Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to publish policy options focused on renewable energy sources and sustainability. It covers all areas of renewable energy, looking at its possible applications not only from a technical perspective but also from an economic, financial, social, political, legislative, and regulatory perspective.

Fields Covered:

- Access to clean energy; energy conservation; energy efficiency; energy behavior; energy conservation; energy for the poor (renewable options for rural electrification); energy meteorology; energy scenarios; energy security; energy storage.
- Renewable energy scenarios; renewable energy strategies and policies; renewable vehicle energy; renewables energy for drinking water solutions; renewables for poverty reduction; renewables for small islands; solar cars; solar PV; solar heating and cooling; geothermal energy; wind energy; tidal energy.
- Sustainable energy policies; sustainable hydropower; sustainable public transportation.
- Environmental policy; climate policy.

Keywords: renewable energy; sustainability; energy efficiency; environmental pollution; climate change.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
