Deadline for manuscript  
submissions:

**closed (1 March 2023)**

### **Message from the Guest Editors**

With the rising importance of sustainable development, efforts have been made in the construction industry to reduce the environmental impacts of construction and building materials. It is very important to quantitatively evaluate the environmental impact caused by construction and building materials, and related theoretical, practical, and technical research is actively being conducted along with the operation of certification in various countries.

The Special Issue will address various issues associated with the environmental evaluation of construction and building materials. Theoretical, reporting, strategic, practical, and review papers are welcomed. Topics of interest include, but are not limited to:

- Environmental evaluation of sustainable construction and building materials
- Advanced environmental evaluation technology for construction and building materials
- Environmental product declaration of building materials
- Carbon footprint of building materials
- Environmental impacts of structure using recycled materials
- Sustainable supply chain for building materials
- Practical and Emerging issues in sustainable construction and building materials

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
