Message from the Guest Editor

Dear Colleagues,

The EU has almost 182 million hectares of forest land, covering 43% of its land area. European forests offer a wide range of benefits for the environment, society, and the economy. A sustainable forestry and utilization of natural resources is the basis for a sustainable bioeconomy. Sustainable forestry means caring for and managing forests to provide natural resources in balance with the environment and society. Wood offers opportunities for producing energy, biobased materials, and products for construction and furnishing. When talking about wood sustainability, there are two main aspects that need to be considered: life cycle assessment and supply chains of timber products.

This Special Issue of *Sustainability* will focus on approaches, methods, good practices, and challenges concerning sustainability in forestry and wood processing. This Special Issue aims to publish high-quality research papers in the field of sustainable forest-based sectors from the ecological, social, technological, economic, and management points of view.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
