Deadline for manuscript submissions:
30 September 2019

Message from the Guest Editor

Sustainable mobility is a central topic in almost all transport policy documents at different administrative levels. Indeed, for instance, in the case of the European Union, the White Paper of the European Commission (Roadmap to a Single European Transport Area—Towards a competitive and resource efficient transport system) delineates the European transport policy until to 2050. In this document, the Commission identifies two main objectives that are strictly related to the promotion of sustainable mobility: i) the reduction of greenhouse gas emissions from the transport sector by at least 60% by 2050 compared to 1990, and ii) to reduce the oil dependence of the European countries. At the same time, the document explicitly states that “Curbing mobility is not an option”, but provides some strategies for reaching the goals that are, primarily, related to sustainable mobility, from the use of low-carbon sustainable fuels and propulsion systems to the promotion of rail transport for both passengers and freight, from the use of smaller, lighter and more specialised road passenger vehicles in urban areas, to the use of ITS in real-time traffic management.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed by the Science Citation Index Expanded and Social Sciences Citation Index (Web of Science), as well as Scopus and other databases.

**Rapid publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the second half of 2018).
