Dr. Cecilia Arnaiz Schmitz

Department of Biodiversity, Ecology and Evolution, Complutense University of Madrid, 28040 Madrid, Spain

Deadline for manuscript submissions:

closed (15 October 2022)

Message from the Guest Editors

We are pleased to invite you to contribute to an upcoming Special Issue of the open-access journal *Sustainability*. This Issue is being guest-edited by P. Díaz-Rodríguez, A.J. Rodríguez-Darías and C. Arnaiz-Schmitz. The deadline for manuscript submissions is 15 May 2022. Our aim is to compile a Special Issue that highlights research in recent trends in the debates on the utility of Protected Areas as a tool for sustainable development. These spaces are a complex construct with multiple socio–environmental implications.

The aim of this Special Issue is to promote and share reflections on the challenge faced by Protected Areas as a tool for sustainable development, their contribution to the SDGs, the complexity in their interactions with cultures, productive activities and tourism, as well as the resilience mechanism linked to them. Original research articles and reviews are welcome, including (but not limited to) contributions addressing particular or comparative case studies, analytical methods or emerging trends.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
