History, Görlitz, Germany

**Dr. Fumino Maruo**

Chuo University, Tokyo, Japan

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue focuses on biodiversity of Svalbard environments. We welcome manuscripts in all fields related to Svalbard biodiversity, species ecology, and conservation. We encourage all type of manuscripts (i.e., comprehensive reviews, case studies, and original research articles) dealing with theoretical aspects, observation data analysis, monitoring and predictive modeling. Potential topics include:

- Species diversity in terrestrial and maritime ecosystems;
- Environmental drivers associated with species diversity;
- Species range dynamics;
- Species adaptations;
- Invasive and alien species;
- Effects of climate change and extreme weather events on species diversity and distributions;
- Anthropogenic influences on species diversity;
- Monitoring of species diversity, ecosystem processes, and environmental drivers by experimental manipulation of selected drivers;
- Others (related).

Submitted manuscripts will be subjected to regular publication requirements of *Sustainability* (please see “Instruction for Authors”) and will follow the reviewing and publication processes of the journal.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
