Deadline for manuscript  
submissions:

**closed (30 October 2023)**

### Message from the Guest Editors

With the continuous expansion of the urban population and improved traffic conditions, the frequency and duration of pedestrian travel have increased significantly. Statistical results have shown that traffic accidents involving pedestrians have become a major traffic safety concern. To reduce pedestrian casualties and ensure their safety, efforts to understand pedestrian and driver behaviors are needed. In addition, the frequency of large-scale crowds has resulted in serious challenges in maintaining the sustainable development and safety of our cities. Pedestrian dynamics involve complex transport characteristics and interesting collective phenomena, an understanding of which is highly relevant for a wide range of civil engineering applications for crowd management and pedestrian facilities' optimization for urban development. This Special Issue will present state-of-the-art research on traffic safety, traffic flow, pedestrian dynamics and sustainable management.

We look forward to receiving your contributions.

Dr. Shuchao Cao

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
