submissions:

31 December 2021

Message from the Guest Editors

Transnational research cooperation is not merely about researchers from different nations collaborating with each other in conducting research and writing research papers; it is concerned with related policy frameworks, funding structures, motivations for career development, etc. Moreover, it goes beyond the sector of higher education and works across sectors such as university and industry. In contrast to dramatic changes in transnational research cooperation in terms of both quantity and quality, little research has been done in exploring the nature of the phenomenon. We invite research papers to discuss the following issues, albeit not in a strict sense:

- Various forms of transitional research collaboration
- The changing nature of and challenges in transnational research collaboration
- Higher education, science & technology, and research policies addressing responsible research, innovation, and research collaboration
- Theoretical understandings of the societal impact of transnational research collaboration
- Assessment mechanisms/evaluation tools underlying the societal impact of transnational research projects/collaboration
- New methodologies in the new research agenda

an Open Access Journal by MDPI

Editor-in-Chief

Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and many [other databases](#).

Journal Rank: [JCR](#) - Q2 (*Environmental Sciences*) / [CiteScore](#) - Q1 (*Geography, Planning and Development*)
