Message from the Guest Editors

Operation research (OR) tools have become ubiquitous in transport and logistics system analysis. They permeate all kinds of daily activity processes and the provision of services. Innovative models based on the classical ones and modern practice have been developed, and novel application cases have emerged that would have been unthinkable not too long ago. This trend is irreversible, and reliance on OR tools is predicted to accelerate in these areas in the following years.

In recent years, carbon neutrality has attracted interest from academia and various industries. Transport and logistics industries represent the main carbon emission producers, and thus the reduction in carbon emissions in these areas is critical for sustainable development. Moreover, it is believed that OR tools could play a significant role in this reduction.

For this Special Issue on OR for sustainable transport and logistics, we are inviting research that provides decision markers with a better understanding of OR tools' role in sustainable performance.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
