### Message from the Guest Editor

This Special Issue focus on sustainability issues in transport pricing (including taxation of transport activities). It is especially interesting to see contributions addressing the potential conflict between different aspects of sustainability (e.g. environmental vs. social impacts) but all contributions addressing pricing and sustainability are welcome. Potential topics include (but are not limited to):

Deadline for manuscript  
submissions:

**closed (30 November 2019)**

- Optimal pricing of different transport modes
- Environmental effects of different pricing schemes
- Distributional effects and effects on the social inclusion of different pricing schemes
- Effects on the competitiveness of different sectors of different pricing schemes
- Goal conflicts due to the pricing and taxation of transport services
- Comparative analyses of different taxation/pricing regimes and their effects
