Message from the Guest Editors

The Special Issue, “Transportation Safety Management: Perspectives for Sustainability”, is focused on keeping the required safety level for different aspects of sustainable transportation. Transport safety and sustainable transportation are both very important issues, but cannot be regarded in contradiction. Nowadays, new technologies and ideas generate new solutions for transportation, but new threats also appear. Identifying and suppressing them are big challenges for both researchers and practitioners. Thus, the Special Issue should draw the attention of scientists and transportation decision makers. Works related to increasing the safety level of sustainable transportation are welcome.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
