### Message from the Guest Editors

Dear Colleagues,

The goal of this Special Issue is to collect studies on the impacts of COVID-19 spread and the analysis of possible implications in future management policies in the water sector. We welcome contributions dealing with (but not limited to) the following research areas:

- Water supply dynamics;
- Effects of COVID-19 spread on the water sector;
- Resilience of the water sector to health emergencies;
- Water drinking demand patterns;
- Safe management of wastewater;
- Future challenges to be faced in the water sector;
- Role of water after the end of the COVID-19 pandemic.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
