Message from the Guest Editors

Wood-products trade is affected by numerous policies directly targeting the forest-sector. Notably, concern regarding unsustainable forest practices has led to policy initiatives—targeting producer (exporting) and (or) consumer (importing) countries—designed to strengthen sustainable and legal forest management by promoting trade in legally produced timber and discouraging illegal timber trade. In addition, there are policies indirectly affecting the forest-based sector and wood-products trade. Prominent among these are climate and energy policy initiatives. At the same time as wood-products trade is the subject, directly or indirectly, of a number of policies, it can affect the effectiveness of policy instruments, for example, those intended to enhance climate change mitigation.

This Special Issue intends to further the understanding of the interplay between policy and wood-products trade. Themes that could be covered include, non-exhaustively, trade diversion, substitution, certification, chain of custody, and market effects leakage. The scope encompasses global as well as regional and national policy levels.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
