

Special Issue

Waste Valorization and Management to Increase the Resources Sustainability

Message from the Guest Editors

This Special Issue aims to collect new ideas of research on the topic of “Waste Valorization and Management to Increase the Resources Sustainability”. In this sense, works that involve waste characterization and the development of programs and actions aimed at waste management are included in this special edition. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following: New strategies and guidelines to improve waste management systems; Chemical and physical waste characterization; Waste valorization in new sustainable materials; Implement data analytics to study recycling patterns in waste management; Innovative approaches for the recovery of landfilled wastes; Life cycle and carbon footprint analysis of waste.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
