Searching for a Sustainable Holistic Balance: Optimal Wellbeing Environments

Message from the Guest Editors

In line with the Sustainable Development Goals (SDGs), sustainability implies constant and preferably growing well-being and a global balance between human beings and the ecosystem. Sustainability and sustainable development are linked to a new idea of well-being that considers the health and quality of people's lives and revolves around three components: environmental, economic, and social. Indeed, a sustainable environment has an active role both in healing processes and in well-being promotion. This is especially in line with SDG 3 (Good health and well-being) and SDG 11 (Sustainable cities and communities). This Special Issue aims to present scientific contributions addressing recent empirical and theoretical analyses of the role of sustainable environmental aspects in the achievement of a renewed conception of well-being.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
