

## Special Issue

# Sustainable Supply Chain Management and Green Product Development

### Message from the Guest Editors

We invite authors to submit original research papers on topics including the following:

- Sustainable Supply Chain Design: Designing eco-efficient and resilient supply chains;
- Green Manufacturing Processes: Reducing emissions and waste in manufacturing processes;
- Life Cycle Assessment (LCA) in Supply Chains: Evaluating environmental impacts throughout product lifecycles;
- Circular Economy Practices: Implementing resource reuse and recycling in supply chains;
- Eco-friendly Product Design: Creating products with minimal environmental impact;
- Sustainable Procurement: Sourcing materials sustainably to support eco-friendly goals;
- Renewable Energy Integration: Incorporating renewable energy in supply chain operations;
- Technology and Innovation for Green Products: Developing new technologies for sustainable products.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
