

## Special Issue

# Soil Pollution, Soil Ecology and Sustainable Land Use

### Message from the Guest Editors

This Special Issue aims to highlight research efforts, on multiple scales, into biogeochemical processes that regulate the fate and transport of nutrients and pollutants in soil ecosystems. In this Special Issue, original research articles, short communications, and reviews are welcome. Research areas may include (but are not limited to) the following: enhancing soil health and sustainability, controlling inorganic and organic pollutants in soils, colloid-facilitated transport, biogeochemical cycling of nutrients, enhancing soil carbon sequestration, preventing nutrient loss from soils, preventing degradation of soils, conserving ecological biodiversity, and modeling of large-scale cycles. **Keywords** 

soil health

nutrient cycling

soil pollutants

ecological conservation

large-scale modelling

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
