

Special Issue

Soil Pollution, Soil Ecology and Sustainable Land Use

Message from the Guest Editors

This Special Issue aims to highlight research efforts, on multiple scales, into biogeochemical processes that regulate the fate and transport of nutrients and pollutants in soil ecosystems. In this Special Issue, original research articles, short communications, and reviews are welcome. Research areas may include (but are not limited to) the following: enhancing soil health and sustainability, controlling inorganic and organic pollutants in soils, colloid-facilitated transport, biogeochemical cycling of nutrients, enhancing soil carbon sequestration, preventing nutrient loss from soils, preventing degradation of soils, conserving ecological biodiversity, and modeling of large-scale cycles. Keywords

soil health

nutrient cycling

soil pollutants

ecological conservation

large-scale modelling

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
