

## Special Issue

# Sustainable Tourism and Tourism Destination Management

### Message from the Guest Editor

This Special Issue aims to explore the multiple dimensions of sustainable tourism, with a particular focus on innovative approaches to destination management. In a post-pandemic context, marked by the need to transform tourism development models, we welcome contributions addressing topics such as destination resilience, participatory governance, tourism's ecological footprint, and the integration of local communities into tourism planning. This Special Issue invites theoretical and empirical studies that employ either qualitative or quantitative methods and welcomes interdisciplinary perspectives from marketing, geography, economics, sociology, and environmental sciences. The objective is to offer a critical and constructive reflection on the levers that can reconcile tourism attractiveness with the sustainability of places. Case studies, analytical models, and comparative analyses are especially encouraged.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
