

Special Issue

Sustainable Wastewater: Solutions, Treatment & Opportunities

Message from the Guest Editor

This Special Issue is devoted to being the premier platform for the publication of world-leading and high-impact research in the field of sustainable wastewater treatment and processes. Our scope focuses on the sustainable solutions of wastewater treatment, focusing on issues related to its treatment and practices as well as opportunities that lay ahead as the field progressively moves forward. The submission of outstanding research articles and state-of-the-art reviews is actively encouraged from researchers in the following areas of interest:

- Sustainable wastewater treatment processes
- Green-material-based treatment
- Nanotechnology-based treatment
- Microbe-based treatment
- Nature-based treatment
- Wastewater treatment with resource recovery
- Wastewater treatment with water reuse, reclamation and recycling
- Wastewater treatment with less carbon footprint
- Renewable-energy-powered wastewater treatment
- Energy-saving wastewater treatment
- Decentralized wastewater treatment

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
