Special Issue

Technology for Sustainable Development of Aquaculture

Message from the Guest Editors

Aquaculture is the fastest-growing food production sector and has become the main source of aquatic food, surpassing the wild capture from inland and marine waters. Therefore, the sustainable development of aquaculture is crucial for global food security and poverty reduction. The present Special Issue aims to publish the latest research papers that seek technologies to address the environmental impact of aquaculture from the following topics:

- System engineering for waste treatment;
- Biotechnology for nutrients (i.e N and P) recovery and valorization;
- Reducing emissions and footprints of aquaculture;
- Alternative fish feed ingredients to replace fish meal;
- Improving feed utilization and fish nutrition;
- Fish health and welfare management.

Other topics that are closely related to the management and perspective on sustainable development of aquaculture are also of interest.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
