Special Issue

Contaminants in Irrigation Water Impacting the Safety of Fresh Produce

Message from the Guest Editors

We invite you to contribute your research to a Special Issue of Sustainability on the topic of "Contaminants in Irrigation Water Impacting the Safety of Fresh Produce." This Special Issue seeks to focus on the mitigation of microbial and chemical risks in agricultural water by exploring novel technologies, management practices, and policy frameworks. We encourage the submission of original research articles or reviews that contribute to our understanding of contaminants in agricultural water and their impacts on fresh produce safety. Your expertise and research are crucial in generating collective knowledge that informs policymakers, researchers, and growers and educators in improving water quality, meeting regulatory requirements, and safeguarding public health. By promoting sustainable agricultural water management practices, we can enhance the safety and resilience of our food systems while preserving natural resources.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
