

## Special Issue

# Sustainable Transportation and Logistics Optimization

### Message from the Guest Editors

We welcome research contributions addressing the following topics:

- Optimization methods for buses, ridesharing vehicles, and dispatching strategies;
- Site selection for electric-bus charging facilities;
- Energy management and optimization techniques for electric vehicles;
- Environmental factors associated with electric vehicles;
- Safety considerations for electric vehicle travel;
- The application of big data in bus planning and scheduling;
- The modeling and analysis of urban public transport and shared mobility networks;
- The sustainable management of transportation and logistics;
- Strategies for coordinating electric vehicles with other vehicles within the public transport system;
- Behavioral analyses of electric-vehicle users;
- Sustainable transportation and logistics network optimization methodologies.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
