Special Issue

Plateau Ecosystem Carbon Cycling: Towards Sustainable Ecosystem Management

Message from the Guest Editors

Dear colleague, This Special Issue stems from the need to stimulate and collect the most recent research in this field with a specific focus on plateaus. Understanding the basic processes of carbon flow will provide an important basis to reveal the dynamic characteristics, patterns, processes and functions of various ecosystems in the plateau area to lead to the development of tools and models for the sustainable utilization and management of plateau ecosystems. Carbon/nitrogen cycles, carbon fluxes, and carbon pools: Ecosystem carbon sequestration: Low-carbonoriented ecosystem protection and restoration; Ecosystem assessment and management; Anthropogenic impacts on plateau ecosystems; Ecosystem changes under climate change. We look forward to receiving your contributions. Prof. Dr. Xufeng Mao and Yilei Yu

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
