Special Issue

Agricultural Economics, Advisory Systems and Sustainability

Message from the Guest Editor

The Special Issue, "Agricultural Economics, Advisory Systems and Sustainability", seeks research on the role of economics, advisory systems and technological innovation in sustainable agriculture. Aligned with Sustainability's interdisciplinary scope, it will showcase strategies for sustainable growth and resilience. This Special Issue invites contributions on topics such as the following: economic frameworks supporting sustainable agriculture; AKIS and advisory services in sustainable practices; ICT and precision agriculture for resource management; the impact of policy on sustainable farming; case studies on integrating advisory systems for sustainability and new trends in agricultural extension services. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Agricultural economics:
- Agricultural advice;
- Agricultural knowledge and innovation systems (AKIS);
- ICT in agriculture;
- Agricultural education;
- Agricultural extensions;
- Precision agriculture.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
