

Special Issue

Roles and Status of Sustainable Development Goals in the Deployment of Technological and Social Innovations

Message from the Guest Editors

We are particularly interested in submissions that present both conceptual and applied insights, including the following:

- Interdisciplinary studies that address technology's interaction with various SDGs and its capacity to support development objectives' understanding and achievement;
- Case studies exploring the socio-environmental impacts of technological deployment;
- Investigations into the environmental lifecycle and long-term sustainability of technological innovations, considering both the intended and unintended impacts;
- Policy analyses focused on adapting governance and regulatory frameworks to better integrate sustainable technology solutions in society.

Through this Special Issue, we seek to advance a dialog that illuminates the potential of technology to support meaningful change across sustainability pillars, encouraging contributions that provide grounded perspectives on both the possibilities and the paradoxes of technology-driven sustainability in different contexts and sectors.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
