

## Special Issue

# Global Changes and Environmental Impacts on Soil, Rocks, Water, and Air Sustainability

### Message from the Guest Editors

Climate change has had a major impact on the earth. These impacts are directly reflected in the weather-related natural hazards. Over the years, these hazards became more disastrous to various aspects of human life. This Special Issue encompasses academic articles and/or reviews:

- Highlighting the severe impacts related to natural hazards and climate change.
- Remote sensing technologies' role in surveying, analyzing, mapping, and interpreting climate change—natural hazard impacts and/or relationships.
- Studies related to prevention, damage mitigation, and risk management of natural hazard events.
- All aspects of geological, geomorphological, climate change, and natural hazards.

This Special Issue focus on research that highlights the relationship between climate change and natural hazards. We encourage researchers in this Special Issue to publish their experimental, computational, and theoretical research relating to landslides, erosion, earthquakes, storm surges, floods, and land subsidence, in addition to vulnerability and risk assessment.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
