Innovative Strategies for Rural Development: Advances in Sustainable Agriculture and Responsible Agritourism

Message from the Guest Editors

Innovative strategies for rural development are transforming traditional agricultural practices and local economies by integrating advances in both agriculture and tourism. Agritourism is the combination of agriculture and tourism. Thus, responsible agritourism promotes sustainable agriculture and creates opportunities for economic diversification by immersing travelers in farming practices, experiencing local culture, enjoying farm-to-table dining, engaging in hands-on agricultural activities, and supporting local communities. This emerging approach encourages rural communities to adopt eco-friendly farming techniques, utilize renewable energy, and implement precision agriculture technologies that optimize resources while minimizing environmental impact. This Special Issue explores the intersection of agriculture and agritourism, focusing on innovative strategies that promote sustainable growth in both sectors, while also addressing potential conflicts and negative impacts.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
