

Special Issue

Nature-Based Tourism and Outdoor Recreation in the Context of Sustainability

Message from the Guest Editor

This Special Issue, 'Nature-Based Tourism and Outdoor Recreation in the Context of Sustainability', will focus on the growing importance of tourism and recreation based on nature in the context of sustainable development.

Our goal is to provide in-depth reflections on how to combine the experience of nature with responsible environmental management, biodiversity protection, the well-being of local communities, and the promotion of responsible attitudes among tourists. This Special Issue will cover topics such as the impacts of recreation on natural ecosystems, the impacts of nature-based tourism development on local community development, the pro-environmental behaviors of tourists, environmental education, and the use of tools for measuring and monitoring sustainable development. This Special Issue will focus on research on the impacts that tourism has on the natural environment using social, economic, and technological perspectives.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
