

Special Issue

Extra-Role Behaviors for Sustainable Organization Management

Message from the Guest Editors

In the increasingly unpredictable, fast-changing business environment, organizations equipped with adaptive and collaborative capabilities are most likely to survive. Accordingly, extra-role behaviors as a key component of prosocial, flexible, and collaborative interactions in organizational settings have gained enduring research interest. Indeed, extra-role behaviors have been associated with increased productivity, work engagement, job satisfaction, service quality, and customer satisfaction and loyalty.

This Special Issue aims to deepen the current understanding of the psychological processes and outcomes of extra-role behaviors and the contexts that promote such behaviors across diverse fields of research. We encourage submissions of empirical and conceptual research from any theoretical perspectives that fall broadly into the following topics.

The cognitive and affective processes underlying extra-role behavior;

The conditions and contexts that promote extra-role behavior;

The outcomes of extra-role behavior;

Citizenship behavior toward organization, coworkers and customers;

Customer-helping behavior;

Customer citizenship behavior

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
