

Special Issue

Business Circular Economy and Sustainability

Message from the Guest Editors

Although the operation of businesses is a cornerstone for the provision of goods and services, the creation of new jobs and the increase in GDP in the modern economy, it nevertheless causes significant negative impacts on the natural environment. In particular, the operation of businesses affects the quantity and quality of renewable and non-renewable natural resources, and this degradation equally poses a risk on business operations. The purpose of this Special Issue is to attract articles that will shed light on practices adopted by companies in the field of circular economy and business sustainability. The aim is to highlight techniques throughout the life cycle of products that reduce pollutants and resource consumption, that use end-of-life materials, and that promote a sustainable way of operating. Thus, we aim to feature a range of disciplinary and interdisciplinary research contributions that propose solutions, whether for new policies and legislative reforms, for changes within the business, or for channeling other societal and economic incentives to achieve sustainable business as a key element of the transition towards a sustainable circular economy.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
