

Special Issue

Sustainable Crop Production and Plant Science: Theories, Methods, Modeling and Applications

Message from the Guest Editors

This Special Issue welcomes the submission of original articles or reviews relevant to interdisciplinary scientific research within plant science from the sustainable perspective, including: innovative laboratory activities and methodologies; studies regarding new products as well as the modeling and optimization of the related technological processes; and field experiments and/or case studies critically approaching the application of natural products for plant fertilization or protection. This Special Issue aims to identify scientific research approaches to the important problem of sustainable development, having a huge impact on the global population, and targets to unveil both the benefits and drawbacks or dilemmas connected to the agronomical and ecological choices made within agriculture and plant science. Therefore, we encourage researcher engineers, decision makers, and practitioners focused on the abovementioned issues to submit their works to this Special Issue. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
