

## Special Issue

# Sustainable Organization Management and Entrepreneurial Leadership

### Message from the Guest Editors

We welcome empirical research, theoretical papers, literature reviews, and case studies that contribute to our understanding of how organizations can effectively manage sustainability imperatives while fostering entrepreneurial spirit and innovation. Interdisciplinary approaches are encouraged, as are papers that offer practical insights for practitioners, policymakers, and educators in the fields of sustainability and entrepreneurship. This Special Issue aims to provide a comprehensive exploration of how organizations are adapting their management practices to meet sustainability goals, the leadership approaches that are proving most effective in this context, and the innovative strategies being employed to create value while addressing environmental and social challenges. By bringing together diverse perspectives and research approaches, we hope to advance both theoretical understanding and practical knowledge in this critical and rapidly evolving field.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
