

## Special Issue

# The Impact of Sustainable Tourism on Regional Development

### Message from the Guest Editor

Recent events worldwide have highlighted sustainable tourism's impact on regional development. Sustainable tourism simultaneously addresses different tourism stakeholders' needs: visitors who demand a good quality of experience, entrepreneurs who seek to maximise business opportunities and residents who expect to improve their quality of life. Sustainable tourism endeavours to ensure that the entire industry is environmentally responsible, economically viable and socially equitable.

This Special Issue seeks to cultivate a greater awareness of rapidly changing and intensifying sustainability claims made by diverse tourism stakeholders. By adopting sustainable tourism practices, regions can create a more sustainable and resilient tourism industry that benefits both visitors and locals.

Ultimately, the main aim is to explore answers to real-life problems and challenges linked to sustainable tourism's effects so that it can contribute more fully to regional development by promoting economic growth, environmental protection, social equity and cultural preservation.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
