

Special Issue

Energy Use, Storage and Emission Analysis for Industrial Decarbonization

Message from the Guest Editors

Research and technological development related to all types of energy systems applied to the industrial sector from the perspectives of fundamental science, promising materials, as well as component- and system-level design are all welcomed. The specific areas of interest for this Special Issue include but are not limited to the following:

- Advanced emission control technology;
- Advanced component and energy system design;
- Analysis comparing promising decarbonization technologies in the industrial sector;
- System-level modeling;
- Renewable energy applications in the industrial sector;
- Energy storage systems in the industrial sector;
- Low- or zero-carbon fuels;
- Life-cycle analysis and technical and economic analysis on the above technologies.

We look forward to receiving contributions from the energy research community to address the ongoing climate change issue for a de-carbonized future.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
