Editorial Board Members' Collection Series: Regional Sustainable Development

Message from the Guest Editors

Regional development is an important branch of geographical science, which intersects geography, economics, and sociology. It contains multiple aspects of socioeconomics, such as economic growth, resource allocation, industrial structure, social welfare, regional planning, etc. With the increased focus on environmental and social problems, the United Nations has proposed 17 Sustainable Development Goals (SDGs). The emergency of balancing regional development and sustainability has become an important issue. To this end, we invite the Section Editorial Board Members to preside over the collection series of Regional Sustainable Development. The topics of interest include, but are not limited to the following:

- Sustainable urban development;
- Sustainable rural development;
- Urban planning;
- Urban governance;
- Regional development policy;
- Green economy;
- Circular economy;
- Regional industrial transfer;
- Community management;
- Social well-being;
- Ecosystem services.

Guest Editors

Dr. Juan Miguel Kanai

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
