

Special Issue

Leadership and Human Resource Management in Sustainable Economic Development

Message from the Guest Editors

This special issue aims to explore how HRM leadership devolution and evolution achieve economic sustainability and address challenges to sustainability, with particular references to the types of leadership and sustainable outcomes. Some research questions can link to the following:

- Which leadership style is critical in achieving economic sustainability and addressing challenges to sustainability and development within specific organizational contexts (e.g., multinational corporations, SMEs, NGOs)?
- How and to what extent does HRM leadership affect organizational sustainability?
- How and to what conditions does HRM devolution take place aiming at the economic sustainability?
- How and to what extent do public policies affect HRM leadership to achieve economic sustainability?
- Which skills and abilities are critical for HR leaders in addressing economic and other sustainability challenges?
- How and to what extent does knowledge sharing affect HRM devolution and to what extent could such devolution be sustainable?
- Which HRM strategies should organizations form to achieve sustainable sustained economic outcomes?

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
