

## Special Issue

# Circular Economy in Agricultural, Fisheries, and Foods

### Message from the Guest Editors

The Special Issue aims to shed light on the potential environmental benefits of the circular economy in the context of agriculture, fisheries, and foods and to explore ways to maximize these benefits while ensuring sustainable practices. In the context of agriculture, the circular economy can help reduce waste, conserve resources, and minimize the environmental impact of production, processing, and consumption. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- The impact of circular economy practices on soil health, water quality, and biodiversity conservation.
- The economic benefits and costs of implementing circular economy practices, including the potential for increased resource efficiency, reduced waste, and improved profitability.
- The role of circular economy practices in mitigating climate change and reducing greenhouse gas emissions in the agricultural sector.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
